

My Life! My Plan! Report: Washington High School of IT

2014 - 2015 School Year

Industry Focus: STEM and Engineering

My Life! My Plan! targeted the STEM and Engineering fields on March 18, 2015 at Washington High School of IT. Six volunteer Career Coaches working in the STEM and Engineering fields in Southeast Wisconsin spent the morning with 20 highly motivated students interested in the STEM and Engineering fields at Washington. A guest speaker from Milwaukee School of Engineering also highlighted post-secondary opportunities in these career fields. This report showcases how this event influenced students' AWARENESS, INTEREST, and INTENT in pursuing careers related to the STEM and Engineering fields.

How has this event changed what you know about STEM and Engineering careers?

What will you do to further explore STEM and Engineering careers?

How do the students feel?

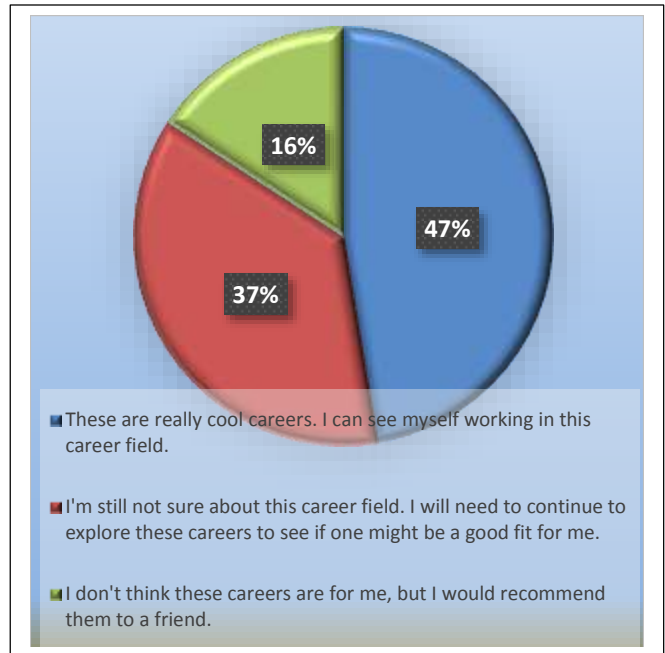

100% of respondents now feel more confident about making a career choice that would be a good match for their interests, abilities, strengths/skills, and talents.

88% of respondents now have a better understanding of the future education pathway alternatives that will help them achieve their career goals.

88% of respondents now have a better plan (or need to make adjustments to their current plan) for the classes, volunteer, and work experience, activities, etc. they need to take for the remainder of high school that will support their career goals.

	# of Students	# of Coaches	# of Workshops
March 18, 2015	20	6	1
Washington's Total	113	31	4
2014-15 MLMP Total	1,829	357	72

Based on what I learned from attending this event, this is what I will tell others about these careers:

In addition to ensuring that each student has a positive and educational experience, My Life! My Plan! aims to confirm that 3 primary goals are met during each workshop. At Washington High School of IT, the following benchmarks have been successfully completed:

- ✓ 100% of all participating students have created short and long term goals by completing the "My Next Steps" worksheet - Please ask your coordinator if you would like copies for your review.
- ✓ 100% of participating students have identified a career or career cluster of interest and have saved it to their plan in Career Cruising.
- ✓ 100% of participating students have completed at least one interest assessment on Career Cruising.

At the end of each workshop, students were asked to identify their top Career Cluster preferences. After participating in the My Life! My Plan! workshop geared towards STEM and Engineering careers at Washington High School of IT, an increase was seen in students interested in the STEM & Business career clusters when compared to the overall interest throughout all MLMP workshops:

Students were asked...

What do you feel are the MOST important topics to research regarding your future career and education plans?

What is/are the greatest barrier(s) you face in achieving your career goals?

"The guest speaker from MSOE was awesome! It was great hearing about the path he took to get to his job. I learned about a lot of opportunities in the Engineering career field."

-Washington High School of IT Student

Tell us about your future plans. Please select ALL the steps that you intend to complete as part of your plan.

My Life! My Plan! walks students through the first steps in exploring in-demand career pathways – but the work doesn’t stop there! At Washington High School of IT, counselors will continue to work with the participating students, focusing on the following next steps:

- A counselor or teacher will meet individually with participating students to track progress
- Work with college/career readiness partners to track progress
- MLMP information will be used to help students choose future courses
- MLMP information will be sent home to parents
- Data on Career Cluster interests will be used to plan future career-related activities and experiences (job shadowing, fieldtrips, etc.)

The My Life! My Plan! Career Coach volunteers play a HUGE role in the success of a workshop. At Washington High School of IT, 100% of participating students have indicated that their Career Coaches made a positive impact on their experience. A special thank you goes out to the volunteers for the STEM and Engineering-focused MLMP workshop:

- Alexis Kazee, UW-Milwaukee*
- Bill Jahnke, WE Energies*
- LaTroy Brumfield, WE Energies*
- Yance Marti, City of Milwaukee*
- Joseph Behmke, UW-Milwaukee ASCE*
- Hunter Lange, UW-Milwaukee ASCE*
